Tech II BY POLAR SEAL

Since 1950, Polar Seal has set the Standard of Quality Innovation for the Vinyl Window Revolution.

The Series Tech II continues the Polar Seal commitment to quality innovation; providing our customers with products and services for nearly every style, taste, and application.

Each new development must add significantly to the beauty, durability, efficiency, and affordability of the Polar Seal family of windows.

The Polar Seal Tech II design has been certified to exceed the Canadian standard for residential windows. This surpasses all U.S. residential standards with an architectural rating as high as grade 28.

Polar Seal's Tech II system is a revolution in window design combining the Yankee ingenuity of tried and true American sliders with sleek clean sight lines unmatched by other high quality windows.

Most older homes have double hung windows so Polar Seal developed the Tech II easy tilt double hung, and a slim sash picture window to match the elegant profiles and multi-chambered strength of the Tech II slider.

You may choose many Tech II styles, for replacement, remodeling, or new construction. Any way you choose, you will be rewarded with the value enjoyed by thousands of Polar

Seal window owners: unparalleled energy efficiency, and a lifetime of maintenance free beauty and dependability.

FEATURES

- Master frames are fusion welded with superior rigidity from our double outer wall.
- Multi-chambered extrusions provide increased insulation.
- Aluminum reinforced handle sections provide long term strength.
- Reinforced weather stripping and our pocket-seal design are the highest quality throughout.
- Our easy to operate vent latch is optional.
- Integrated Color Choice: White, tan and architectural bronze.
- SuperSpacer™ a warm-edge technology that reduces condensation is a STANDARD feature in Polar Seal windows.
- Beveled frames look best. Eight chamber frame construction provides maximum strength and protects the sealed unit from thermal cycling. See our LIFETIME LIMITED WARRANTY.
- Two tier drainage is a technical breakthrough from our research and development lab!
- The slim-trim beveled look of Tech II adds more beauty to your home.

LIMITED LIFETIME WARRANTY

**Two Year
FREE Service**

Polar Seal Window Corporation warrants to the original purchaser of Polar Seal windows that there will be no charge for any necessary repairs, parts, labor or material for as long as you own them. Service fee applicable after two (2) years. No charge to transfer warranty to new owner. Please ask your authorized dealer to show you the entire warranty card.

**AUTHORIZED DEALER CERTIFIED TO SELL & SERVICE
